EXPERIENCE

SENIOR SOFTWARE DEVELOPER

Strypes

2021 - Present

- Taking ownership of complex technical decisions, guiding the team in selecting appropriate technologies, frameworks, and architectural patterns
- Designing high-level architecture for projects, making decisions on microservices, API design, scalability, and data storage solutions.

PYTHON DEVELOPER

Strypes

2020-2021

- Contributing to the architectural decisions of projects, designing solutions that are scalable, maintainable, and aligned with best practices
- Taking a lead role in designing and implementing new features, considering not only functionality but also code organization, maintainability, and performance

JUNIOR PYTHON DEVELOPER

Strypes

2018-2020

- Writing code for various components of a project and debugging issues that arise
- Implementing and understanding fundamental algorithms and data structures
- Adding new features to existing applications or contributing to the development of new features, following design and coding standards
